**Subject:** Potential Partnership Discussion

Hello [REDACTED]

Zigrovin Herbal Extract ZV 007 is used in the suppressive drugs for HIV, gives a good analytical result, and proves to be a corrective cancer cure, and helps in the cure of tuberculosis. The Zigrovin Herbal Extract ZV 007 is a new and rare cold-pressed and pressurized raw material we need for the manufacture of so many life-saving drugs right now. It is a rare herbal mixture from rare organic plants that are nurtured under good environmental conditions to achieve great results after careful preparation.

Our company wants a supplier who will handle the supply of the pressurized raw materials we need for the manufacture of so many lifesaving drugs right now.

The Zigrovin Herbal Extract ZV 007 will be exported to the United Kingdom, where our pharmaceutical company is located. We lost our supplier to this raw material last year and it has hindered production in the company.

I have been able to discover a local dealer who can supply us this product.

Your Duty: You will act as a Front local seller and will supply to our company at the rate of US\$21,000 or less. This will attract the attention of our company director to buy from you as against the previous rate of US\$22,000. The dealer is selling at a cheap rate of US\$9,000 per drum, which is far cheaper than our previous purchases.

It is not in line with my work contract to handle procurement contracts so I seek your consent to act as a front and help execute this project and hand me a commission.

Before I direct you to the CPO and give you more vital information, we will agree on the commission I will get if the contract gets to you and after the supply. I will like to have 20% of the profit after the deal as my commission in this. If you are alright with that then I will draft a MOU so we can sign for it to bind us after that I can direct you accordingly. You will have to send me your full name and address to be able to draft up this MOU.

I will direct you to the procurement department of our company that handles procurement if you agree to give me 20% of the profit as a commission from every \$12,000 made from each barrel purchased by our company.

Once we agree on the commission and I receive your address, then we can draft the MOU and after that I can direct you accordingly.

Best regards,

Vicki Jin
